VISION AND MISSION

The eta vision represents our desired future:

   We offer stimulating education experiences that inspire our students learning. They are supported by well-qualified staff and up-to-date teaching and learning technologies with work-based learning that ensures job readiness.

The eta mission is inspired by

“Education is the most powerful tool to improve our world”. Nelson Mandela

We serve our learning communities by providing access to education that provides employment opportunities in the sport, recreation, leisure and wellness sectors. Our mission requires that we:

1. Enhance our students’ lives through qualifications that target employment in the sport, fitness and health industries.
2. Promote the importance of sport, physical activity and wellness, with demanding learning experiences.
3. Provide quality, innovative learning in both contact and distance modes, balancing theory with practice and knowledge with skills.
4. Develop our staff to ensure they support our students to achieve their learning.
5. Enable our graduates to be job ready or become entrepreneurs because each programme includes knowledge and understanding of business.
6. Foster alliances with communities, industry, sport federations, government and other providers of education (public and private).
7. Uphold the regulatory and quality assurance requirements of our institution; ensuring a range of programmes that lead to registered qualifications.
Our higher education programmes are accredited by the CHE and our occupational programmes are approved by CATHSSETA (mandated by the QCTO). Our qualifications are registered on the National Qualifications Framework (NQF) by the South African Qualifications Authority (SAQA).

In fulfilling our accreditation criteria, our campuses are registered with the Department of Higher Education and Training (DHET) as a private higher education institution.

To ensure that we meet the needs of sport and fitness in South Africa, eta is also a licensed service provider with Sport and Recreation South Africa (SRSA).

Our qualifications are benchmarked against international best practice in sport and fitness; thus our graduates are able to find employment in South Africa and all over the world. Students can study coaching science, fitness or sports management.

There is the option of pursuing full-time studies, which is ideal for the school leaver; part-time studies, which is great for those wanting to make a career change or learn more about their field of interest. For those wanting flexibility with their studies, online learning is a perfect solution.

eta distinguishes itself by being a specialist sport and fitness college that totally immerses its students in their subject matter of sport, fitness or sport management.

We balance classroom theory and research with practical learning and work-based experience. Our students leave us fitter, stronger than when they started, and they graduate skilled and ready for the workplace.

DHET registered eta sites are Bloemfontein, Cape Town, Durban, George, Johannesburg, Port Elizabeth, Pretoria and Stellenbosch. We have additional sites in South Africa offering CATHSSETA accredited programmes, namely in East London and Nelspruit. Our programmes are also offered in Mauritius and Namibia.
** ETA has become a highly respected international education provider offering learning towards registered qualifications.**

** ETA College was launched in 1983 to meet the education needs of the fast-developing health and fitness industry. In 1994 the directors, Linda Halliday and Dr Steve Harris took over the ETA from Dr Malcolm Marrison who founded the organisation in Cape Town.**

** ETA evolved into a fully-fledged private college offering courses all over South Africa. Our graduates are able to work anywhere in the world in the sport, fitness, recreation and leisure industries.**

We also saw new demands emerging from our education department, with new legislation and regulations that governed education and these regulatory changes affected education in sport, bringing greater demands for rigorous quality assurance in education.

At ETA, we pride ourselves on having developed our quality management systems to meet the needs of our quality assurors and the Department of Higher Education and Training (DHET).

** ETA is now the leading provider of programmes that lead to qualifications in fitness, coaching science and management qualifications in sport, recreation and fitness.**

Our programmes also address the capacity building and transformation needs of the South African society. This is done through ETA Special Projects which caters for learnerships, skills programmes and workplace training in sport, recreation and fitness.
INTERNATIONAL COMPARABILITY

All eta qualifications are benchmarked against qualifications in Australia, Canada, Great Britain, New Zealand and the USA, showing substantial degrees of similarity.

Eta qualifications are accepted internationally in countries where we have campuses or where the Register for Exercise Professionals (REPS) is established. We have been enabling graduates to launch their careers in fitness, sport coaching and the business of sport since 1984.

LANGUAGE POLICY AND MODE OF INSTRUCTION

The language of instruction is English.
The main mode of learning is contact learning.
Distance learning is an alternative mode of instruction.

We have developed a world class education process which is supported by technology and consists of theory, application and practise in the field. This ensures that graduating students are ready for their careers.

ADMISSION REQUIREMENTS

Short Courses
No minimum requirement for admission to CATHSSETA accredited Short Courses. Group Exercise Instructor (GEI) is the minimum requirement for REPSSA endorsed Short Courses – except for Massage (No admission requirement).

Certifications
Personal Trainer - You need to have successfully completed Grade 12 and achieved your National Senior Certificate with a minimum overall pass rate of 30-39%.
Yoga RYT 200 - (No admission requirement).

Higher Certificates
The minimum admission requirement is a National Senior Certificate with a minimum of 30% in the language of learning and teaching of the higher education institution as certified by Umalusi, the Quality Assurance Council. Institutional and programme needs may require additional combinations or recognised NSC subjects and levels of achievement.

Advanced Certificates
To enter this programme, you must have achieved the NQF level-5 Higher Certificate or an equivalent qualification in the cognate field at NQF level 5.

Diplomas
The minimum admission requirement is a National Senior Certificate with a minimum of 30% in the language of learning and teaching of the higher education institution as certified by Umalusi, the Quality Assurance Council, coupled with an achievement rating of 3 (Moderate Achievement, 40% - 49%) or better in four (4) recognised 20-credit subjects. Institution and programme needs may require additional combinations of recognised NSC subjects and levels of achievement.

Degrees
The minimum admission requirement is a National Senior Certificate with a minimum of 30% in the language of learning and teaching of the higher education institution as certified by Umalusi, the Quality Assurance Council, coupled with an achievement rating of 4 (Adequate Achievement, 50% - 59%) or better in four (4) recognised 20-credit subjects. Institution and programme needs may require additional combinations of recognised NSC subjects and levels of achievement.

This comprehensive degree programme emphasises the theories and principles of business management and how they are applied to the commercial worlds of sport and leisure. The programme has a strong emphasis on leadership, emotional intelligence and communication, ensuring you of the knowledge and skills needed to lead and manage others. Sport and Leisure studies include subjects like sports law, sport sociology, legal and ethical issues in sport, sport development and transformation. In your final year you can choose exciting electives such as sport commentary, sport reporting, sport tourism, event management, athlete representation or facility management.

This diploma programme will appeal to those with an interest in the world of sport development and physical education in the context of sport and recreation business management, sport marketing and public relations as well as event management and its administration processes. The programme includes human capital management and volunteer management, giving insight into the management of individuals and teams in a range of sport and recreation contexts. With community sport development as an outcome, you also learn about physical education, ensuring the ability to plan, implement and manage physical education programmes in schools and communities.

This one year vocational programme gives students the vital knowledge and skills needed to embark on a career in the world of sport, recreation or fitness management. You will learn the basics of managing a sport or recreation organisation and how to implement events. You will also acquire knowledge about sport informatics and sport sociology, each giving insight into the world of sport and recreation and the social context in which it functions. This programme gives you the knowledge and skills needed to enter the world of sport and recreation management.

RPL emerges from a global inclination in this century to increase a student’s access to education, by articulating various types and levels of education with each other, so that there can be lifelong learning and no-one is barred from higher education. RPL enables access to the knowledge and skills needed to work in the fast-growing sport and fitness sector where competent employees are critical for the growth of the profession and its industry (Skills Development Act, 1998, Skills Development Amendment Act, 2008). In South Africa, it was a core principle of the White Paper on Higher Education in the late nineties, and again in the January 2012 Green Paper for post-school education and training issued by The Department of Higher Education and Training. For South Africans, RPL implies the entryways of learning might be opened. All higher education institutions in South African must have a policy and procedure to assess prospective students’ RPL to see if they can enter the courses with a reasonable chance of success.

Category 1: Recognition of informal or non-formal learning
If you do not hold a formal qualification but you have valuable work experience, it is possible for your knowledge and skills to be recognised. Such learning may translate into an exemption and give you access to higher learning. In certain cases, your knowledge and skills can be assessed for the achievement of a whole qualification, especially those registered on the Occupational Qualification Sub-Framework (OQSF). RPL can also apply to training courses that you may have done at work. To see if you are eligible, please complete our RPL checklist and submit for evaluation. We will then can get back to you on your next step. [Apply here](#)

Category 2: Recognition of prior formal learning to be exempt from repeating learning
If you have prior formal learning in the form of credit-bearing modules or a previously completed programme, it is possible for this learning to be recognised and for you to be exempt from learning you already have. You can use this to gain access to a higher level or to complete a qualification. You need to provide us with proof of your prior learning, in the form of an official transcript of results so we can see what you already know and at what NQF level. If your credits can be transferred then you can be exempted from repeating the same credits and you can complete your studies. Exemption of credits for a programme cannot exceed 50% of its total credits. For example, to complete a diploma or degree of three years, you would need to complete at least 18 months of studies. [Apply here](#)

Category 3: RPL for Access
You are invited to complete the RPL for Access process which is specifically designed for those students who have not been able to meet the minimum requirements for access. This means that for whatever reason, your latest formal qualification was not at the level required for access here. This assessment process, even though it may require some time and input on your part, will enable you with another opportunity to gain access into the qualification that you desire at eta College. We make use of an online application process in partnership with an external assessment and moderation provider in order to make this process happen. This online platform will provide you with step-by-step instructions on how to complete the process before booking your final assessments and interview at eta College. Please ensure that the course that you are applying for suits your career interests and needs. It is important that you fully understand what the course content entails and that on successful completion you can access your career opportunities. If you are still unsure about your course choices and the associated careers, then we strongly advise you to speak to your student advisor before continuing with this process. This could be in the form of a consultation around your career needs and expectations with an eta College student advisor.
Registration with Department of Higher Education and Training (DHET)
Certificate No. 2001/HE07/006. The business registration of eta College is the Exercise Teachers Academy (Pty) Limited. eta is registered as a private higher education institution in terms of Section 54 (1) (c) of the Higher Education Act, 1997 (Act No. 101), and Regulation 16 (4) (a) of the Regulations for Registration of Private Higher Education Institutions, 2002, to offer the registered higher education programmes listed below at the following campuses: Cape Town, Bloemfontein, Durban, George, Johannesburg, Pretoria and Stellenbosch.

Accreditation
In accordance with the requirements of the Higher Education Act 101 (1997), eta is accredited by the Council on Higher Education (CHE). In accordance with Regulation 16 of the SAQA Act 58 (1995), eta is accredited with CATHSSETA, accreditation number 613/P/000007/2004. CHE accredited qualifications are registered on the Higher Education Qualifications Sub Framework (HEQSF). All programmes are HEQSF aligned and our accredited programmes lead to qualifications that are registered on the NQF by SAQA.

Legal status
The Exercise Teachers Academy (Pty) Limited is a registered private company. The CIPRO registration number is 2005/021935/07.

eta qualifications offered at an eta College outside of South Africa, requires that the accrediting body of that country in which the eta College is situated must also accredit eta’s programmes.

Membership
eta is a member of the Association of Private Providers of Education, Training and Development (APPETD). APPETD is a registered financial services provider representing its members. They work with private providers towards establishing and maintaining the highest standards of education and training throughout the industry.

Surety
In accordance with the requirements of the Department of Higher Education and Training, eta invests an agreed amount in financial security. The purpose is to protect students in the unlikely event of eta not meeting its obligations to students.

Recognition by REPSSA
As an accredited provider in fitness, eta is recognised by the Register of Exercise Professionals South Africa, enabling graduates to register with the officially recognised body.
Learnerships and Skills Programmes
All organisations involved in sport and fitness are able to make use of the SETA (Sector Education and Training) system to make application for funding to upskill sports coaches, managers and fitness trainers. CATHSSETA is the SETA responsible for sport and fitness education and works in close consultation with eta College as its accredited learning provider. eta Special Projects takes their client through the application process and, if funding is awarded, conducts the training from induction to certification. eta Special Projects also presents short programmes designed to equip candidates with specific tailor-made skills for sport coaching, sport administration or fitness instruction.

Corporate Social Investment and Outreach
eta Special Projects is involved in many partnerships with NGO’s and has its own NGO called Active Communities Network which strives to use sport and fitness to improve the quality of life for youngsters in troubled communities.

Qualifications and Skills Programmes available
- National Diploma Club Professional Golfing (240 credits; NQF Level 5)
- National Certificate in Sport Management
- National Certificate in Coaching Science
- National Certificate in Fitness
- Further Education and Training Certificate in Sport Administration
- Further Education and Training Certificate in Technical Officiating (151 credits; NQF Level 4)
- Sports Club Administration Skills Programme (54 credits; NQF Level 4)
- Sports Coaching and Administration Skills (37 credits; NQF Level 5)
- Generic Sports Coaching (64 credits; NQF Level 5)
- Fitness Instructor (28 credits; NQF Level 4)

Golf Academies
eta College is an official partner to the Professional Golf Association of South Africa (PGASA) and is accredited to offer the National Diploma Club Professional Golfing. This programme is rolled-out at golf-specific campuses in the Western Cape, Gauteng and KZN with expert PGA recommended tutors. We offer successful graduates a career pathway into the golfing profession. View more.

Clients
ACADEMIC STRATEGY

Teaching and Learning
Due to the nature of our learning programmes and the vocational qualification being achieved, learning is divided into theory, applied theory and practical learning. The exact breakdown is based on the specific course being taught, which may emphasise more theory or practical depending on the key outcomes. The recommended contact hours per session are indicated in our timetables and implementation plans. Classroom time is interactive and sessions are delivered in the context of the course being taught, together with its application. Faculty ensure that eta's principle of Total Immersion is applied to our teaching and learning and that all students experience a planned blend of theory, applied theory and practical learning as well as work-based learning.

Student support
All students are supported through mentorship programmes, portfolio reviews and assessment planning and preparation sessions.

Work based learning
Students complete a minimum amount of hours in the workplace. Each eta site of delivery must have a signed agreement, Memorandum of Understanding or signed letter in place with the relevant workplaces.

Assessment
We have clear assessment policies and procedures and our assessments align to curricula outcomes. The eta assessment process is efficient and rigorous and clear policies guide our assessment and moderation practice. Assessment is a transparent process which is monitored and moderated in accordance with eta policy. Summative assessment is conducted strictly according to the academic calendar and our assessment and moderation policies are reviewed annually to ensure currency and rigour of their application. Each programme has a unique assessment strategy and students are encouraged to read the Assessment Policy and the Assessment Rules Policy.

Our success as a provider is measured by the achievements of our students. The main outcome is 100% achievement for students who have participated fully in the learning programmes.
eta College is built on awesome people and our culture is simple:

- We are serious about education
- Friendly and engaging
- We want our students to gain a valuable qualification with interchangeable knowledge
- Passionate about what we do
- Our venues are immersive, vibrant and engaging
